1. All pending claims 1-6 are allowed. Claim 1 is independent.
2. The amendment to the specification filed March 29, 2006 has been approved by the examiner. The rejection of claims 2-5 under 35 U.S.C. 112, first paragraph is withdrawn.
3. The following is an examiner's statement of reasons for allowance:

Claim 1 was amended to further define the "changeover means". The changeover means includes a plurality of planetary gears, the changeover means for switching over, by moving the reading means between (a) a driving force for feeding in the document tin the fed document reading mode, and (b) a driving force for moving the reading means in the stationary document reading mode, where the driving forces are supplied from a driving force source. These limitations, in combination with other limitations, are not taught by the prior art of record. The closest prior art references of record, Hashizume et al. (U.S. Patent No. 5,862,446), applied in a rejection of the previous Office Action dated December 29, 2005, and Konishi Daishi (Japanese Patent Application Publication No. 10-164312, published June 19, 1998), cited by Applicant, do not disclose that the changeover means includes two planetary gears, wherein the changeover means switches over, by moving the reading means, to switch over the driving forces that are from the driving force source. Hashizume et al. discloses one

planetary gear (46 in Figs. 2, 3, and 5-7), and Konishi Daishi discloses one planetary gear (22 in Fig. 4).

Claims 2-6 depend on claim 1, directly or indirectly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
